

A day without plastic

**A day without plastic, a different kind of routine.
No more cluttering up our lives, another way to be seen.
No more plastic bags, no more straws in the sea.
A day without plastic, an opportunity.**

**No more plastic bags, no more plastic straws.
No more plastic items that do us no good.
We all need to be aware.
And make a change in the air.
A day without plastic, we all should.**

**We can all make a difference, that's the truth.
Learn to reduce and properly reuse.
If we all do our part, we can make a start.
And create a world without plastic abuse.**

**A day without plastic, a new way of life.
Reduce our waste, do what's right.
The earth needs us, we must try.
A day without plastic, let's do it right.**
